

CZAR

Receives the Zemstvo Representatives

DEPUTATION IN HIGH SPIRITS AFTER THE MEETING

Japs Concentrating for a Desperate Assault

DUE TO APPROACH OF FLEET.

Tokyo Orders the Army to Capture Port Arthur at Any Cost—War News From East.

London, Nov. 26.—A copy of the draft of the constitution proposed and adopted by representatives of the Russian Zemstvos at their recent meeting in St. Petersburg was received today. The constitution declares that at the head of the empire there shall be a Czar and an imperial domna. The domna shall consist of two houses elected for three years. The first house of delegates shall be elected by the Zemstvos and town councils. The second house of representatives shall be elected by general suffrage.

St. Petersburg, Nov. 26.—There is an entire lack of news from the front. The report that the Japanese are concentrating their forces for a desperate assault on Port Arthur, in view of the approach of the Baltic squadron, is quite generally credited in official quarters. Such a move has been expected to transpire as soon as the Japanese learn that the squadron's trip was an actuality. The authorities are prepared to hear terrible reports of the projected assault. While not hazarding a guess whether the fortress can be carried if the besiegers are utterly regardless of human life, they are confident that General Stoessel will be able to make such an attack one of the costliest operations in history.

Emperor Nicholas received four prominent members of the zemstvo congress and listened at length to their views. It develops that when Minister of Interior Sviatopolk-Mirsky presented the zemstvo memorial and resolutions on Nov. 24 the emperor was so deeply impressed as well by the contents of the documents as by the character of the signers, that he immediately expressed the desire to personally receive a deputation of four. The zemstvos therefore went to Tsarskoe-Selo by imperial command. At their audience they explained fully their position and reiterated the views expressed by the memorial that the salvation of the empire from ruin by revolution lay in the adoption of the general ideas expressed in the memorial. The emperor was greatly impressed by what he heard and asked many questions. While it is understood that he gave no indication of his purposes except the sympathy he displayed, the deputation, when they returned to St. Petersburg, were in high spirits.

Skirmishing Continues.
Mukden, Nov. 26.—The night passed quietly, though a few scattering shots were heard along the front, particularly in a southeasterly direction. There are large bands of Chinese bandits in the neighborhood of Tie Pass, though no Japanese officers have been noticed among them. The army around Mukden is making dugouts, which are warm and comfortable, and this is regarded as an evidence of an intention to pass the winter in the present location. Skirmishing continues to the southward, but there has been no serious engagements.

Corps of General Kuroki.
Berlin, Nov. 26.—The Lokal Anzeiger's Mukden correspondent telegraphs as follows: According to a report brought by Chinese to Russian headquarters the corps of General Kuroki has arrived at Yinkow. The concentration of strong Japanese forces at Saimatso, northwest of Fengwangcheng, which at first was thought to indicate the formation of a new offensive army, now appears to have been intended only for covering the Fengwangcheng communication.

Rivers Frozen Over.
St. Petersburg, Nov. 26.—A dispatch from Mukden states that the Hun and Taite rivers have been frozen over. The low state of water in the Liao river, the dispatch adds, impedes the transport of Japanese stores from Yinkow and the forwarding of ammunition is delayed by the scarcity of wagons. The removal of the wounded from Liao Yang to Dainy is being executed with difficulty for the same reason.

SPAIN

Willing to Become a Party to a Second Peace Conference.

Washington, Nov. 26.—Spain has signified her willingness to become a party to a second conference at The Hague. The acceptance of Spain completes the list of great powers except Russia, whose consent is expected after the close of the war.

The French ambassador this afternoon formally presented his government's acceptance of the invitation to the powers for a second peace congress.

'PHONE TALK

Led to the Arrest of Charles Kingsbury and Mrs. Pearl Schrupe of Roll, Indiana.

Chicago, Nov. 26.—A conversation overheard on a telephone has led to the arrest here of Charles Kingsbury of Hartford City, Ind., and Mrs. Pearl Schrupe of Roll, Ind. Kingsbury is charged by George Mussetter, who swore out the warrant for Kingsbury's arrest, with attempting to defraud and with assault with intent to kill. Mussetter says Kingsbury tried to defraud him of \$900 on a cattle trade, and failing in this, shot him. Later Kingsbury and Mrs. Schrupe agreed over the telephone to come to Chicago. A telephone operator heard the conversation and told the police of Hartford City, who notified the Chicago police.

IN COLORADO

Two More Arrests on Supreme Court Warrants Charging Contempt Have Been Made.

Denver, Nov. 26.—Two more arrests on supreme court warrants charging contempt have been made as an outgrowth of the legal contest over the recent election in Denver. Thomas Culp and Frank McMahon, Democratic election judges, were brought before the court by a special officer and released on bonds of \$1,000 each. The court also granted a committee of Republicans permission to copy the names from the poll books of the election. When a complete copy has been made the Republicans will begin a canvass of the city for the purpose of ascertaining the extent of the fraud they charge was committed on election day. Certain proposed contests will depend upon the result accomplished.

POTATO CROP

In Ireland is a Failure, Causing Great Distress and Suffering Among the Peasants.

London, Nov. 26.—The failure of the potato crop is causing great distress and suffering among the peasantry of Connemara, Ireland. The Galway county council adopted resolutions urging the government, in view of the pressing need, to afford assistance by providing relief works, especially in the congested districts, and by supplying cheap potatoes for the coming season. The council suggested, among other things, the development of mineral resources. Reports from various districts of Ireland state that the pinch of hunger is already severely felt, especially on the Mayo seaboard.

Patrol Wagon Overturned.
New York, Nov. 26.—By the overturning of the patrol wagon, carrying seven police reserves of the Canarsie police station, Brooklyn, the driver and three of the reserves were seriously injured, two perhaps fatally. The patrolmen were responding to an alarm of fire, and while turning a sharp corner, the wagon almost turned a somersault, hurling the occupants to the ground.

GEN. CHAFFEE

Chief of Staff of the United States Army Thinks That Little New Legislation is Needed.

Washington, Nov. 26.—Lieutenant General Chaffee, chief of staff of the United States army, in his annual report, says in his opinion little new general legislation is needed at this time. He says sufficient time has not elapsed since the reorganization of the army to determine wisely what legislation is necessary. He suggests the enactment of state laws disfranchising deserters from the army. The report urges the re-establishment of recruiting depots at Fort Slocum, Columbus barracks and Jefferson barracks. At present there are something over 1,700 general prisoners at army posts and the post guard houses are "simply crowded to an unsanitary limit."

Dunkirk, N. Y., Nov. 26.—The Lake Shore limited struck a hose cart today killing fireman Frank W. Miller. Two firemen were hurt.

Paraguayan Forts Try to Sink Vessel.

Substance of Secret Treaty Between Chile and Bolivia—Boundary Line Dispute.

Buenos Ayres, Nov. 26.—The Argentine minister to Paraguay has informed the foreign office here that an Argentine torpedo boat proceeding to Formosa, Argentina, received four cannon shots fired from Paraguayan forts at San Antonio. The minister adds that the event occurred in the daytime and that the Argentine flag was clearly visible at the time. The minister visited the Paraguayan president and protested energetically, stating that it was not the first occasion of such an occurrence, and demanded satisfactory explanations. Later information received at the foreign office intimates that the Paraguayan government offered ample satisfaction. President Escurrea visiting the Argentine cruiser El Plata as an act of courtesy and to demonstrate his friendship.

Instructions were wired to the commanders of Argentine warships off Asuncion to adopt stern measures and to the Argentine minister to withdraw in the event of a repetition of such proceedings.

Chile-Bolivian Treaty.
Washington, Nov. 26.—The secret treaty recently signed at Santiago, Chile, between the Bolivian minister at that capital, Senor Alberto Gutierrez, and the Chilean minister of foreign relations, Senor Emilio Bello, in which the emperor of Germany is named as arbitrator of any difficulty arising in the execution of the convention, provides in substance: Bolivia abandons her pretension to the Pacific port and recognizes Chile's right to the province of Antofagasta; Chile assumes the debts of Bolivia, as recognized in article 2 of the treaty of 1895; Chile appropriates \$2,000,000 for the construction of railroads in Bolivia. She herself is to construct the line from Arica to Lapaz already in operation as far as Tacna. And she gives a 5 per cent guarantee for the construction of three other railroads. The Bolivian section of the line shall become the property of Bolivia in 20 years, but Chilean products shall enjoy preferential rebates over it.

International Snarl Adjusted.
Washington, Nov. 26.—Senator Newlands of Nevada, has arrived in Washington after attending the irrigation congress at El Paso, Tex. He regards this congress as one of the most important yet held and says that it will be fruitful of results. "It practically settled the controversy between New Mexico and Texas," said the senator, "and the international contest between the United States and Mexico as to the waters of the Rio Grande by bringing the delegates from New Mexico, Texas and Mexico into agreement as to the location of a great dam and reservoir at Elephant Buttes in New Mexico."

Peace Assured.

FIFTY SHOT

Exchanged in the Bowery Among Ten Chinamen in Which Outsiders Were Injured.

New York, Nov. 26.—Fully 50 pistol shots were exchanged in the Bowery between eight or ten Chinamen, and as a result two non-participants, white men, were wounded, one probably fatally. The police do not know the exact number of persons engaged. The shooting was between members of the Hip Sing Tong, a reform organization, and members of the On Leong Tong, a Chinese secret society which is reputed to foster opium traffic. None of the Chinamen were hit, but John Baldwin received a bullet in his abdomen, which will likely cause death, and Horace Landi was shot in the hip. Several Chinamen were arrested.

Not Mr. Dove.
Chicago, Nov. 26.—Joseph Weil, suspected by the police of being "Mr. Dove," the alleged murderer of Chauffeur William Bates, has cleared himself. He visited the Auditorium hotel and faced Edward Slavin, the boy in charge of the switchboard, through whom "Mr. Dove" ordered the automobile for the fatal ride Friday night. "Take a good look at me," said Weil, confronting the boy, "and tell me if you can identify me as 'Mr. Dove.'"

"You don't look any more like 'Mr. Dove' than I do," replied Slavin. Lee Spark, doorman at the hotel, also failed to identify Weil.

THIRTEEN DIE OF INJURIES IN FOOTBALL

Players Severely Injured Number 296

None of the Big Teams Lost a Man. List of the Killed in the Season of 1904.

Cincinnati, O., Nov. 26.—Thirteen deaths and perhaps many more not made known have resulted this year from injuries received in football games. Last year the number was a bit larger, while in 1902 it was about the same. Nearly all the players whose injuries resulted fatally were young and untrained. None of the famous college players lost any of their men nor were any noted players permanently crippled this season, although some were quite badly hurt.

Of the serious injuries to college or school football players all were enabled to recover in comparatively short time, owing to their perfect physical condition due to careful training under the watchful care of trainers and coaches. The first death occurred on August 30, in Chicago, Ill., while the last victim died at Allentown, Pa., on Saturday last. The ages of the killed ranged from 14 to 24 years, and all were due to injuries actually received while playing the game. The following is a complete list of the fatalities among players throughout the country. The number of serious injuries during the season just closed will exceed that of any year since the introduction of the modern college sport. The players severely injured number 296.

Rome, Nov. 26.—(Bulletin)—A dispatch to the Italia Militaire from Tokyo says the whole north side of Fort Ehrburg, one of the forts surrounding Port Arthur, has been blown up by the Japanese. Several hundred Russians were killed and twenty Russian guns rendered useless. The concentrated bombardment of Fort Ehrburg by 300 Japanese guns began at 5 o'clock this morning.

THE PRESIDENT SEES THE FAIR IN MOUND CITY

Mr. Roosevelt Promises to Try to be Good.

Features of the Fun From Washington to St. Louis—The White House East Sunday Night.

St. Louis, Mo., Nov. 26.—This was a gala day of the Exposition, made so by President Roosevelt's visit. The presidential special arrived inside the grounds at 4 o'clock this morning. The infantry and Jefferson guards guarded the train until 5 o'clock, when President Francis and the reception committee called. At 9:30 the party and exposition officers started in carriages for a tour of the fair, great throngs cheered all along the route. The President viewed the exhibits with interest and made several personal inspections. Tonight at 6 the President's party will become guests of Exposition Treasurer Thompson.

St. Louis, Nov. 26.—The police and secret service officers made every effort today to prevent an attack being made by anarchists on the President. It is positively known that for the last three weeks Horr Most and thirteen confessed anarchists from Paterson, N. J., have been in the city. Police Chief Kiely and government officers have been aware of this, and not once since the anarchists arrived have they evaded surveillance.

St. Louis, Nov. 26.—Great crowds were attracted to the World's fair grounds by the presence today of President Roosevelt and party. At every turn the chief magistrate was accorded a generous ovation. A feature of the day was the Haskell-Carlisle Indian football game, at which the president was an interested spectator.

The feature of the long journey from Washington was the enthusiasm with which the president was received at the principal points. Stops were made only at division terminals and, at some of them, hundreds of people had assembled to greet Mr. Roosevelt and to show their kindly feeling for him. Notable demonstrations were at Pittsburg, Columbus and Indianapolis. At Pittsburg the president addressed the crowd at the station, saying: "You may depend upon it, I will do all that in me lies to show you that you made no mistake on Nov. 8." At Steubenville, O., the platform was banked with men, women and children, scores of whom waved American flags in extending their greeting to the president. A live coon was presented to the president at Denison, O., where the train stopped for a few minutes. The coon will be taken to Washington and placed in the National Zoological park.

When the train pulled into the station at Columbus, the president's car was surrounded immediately by a great crowd. The president was cheered heartily as he stepped out on the platform. He spoke briefly as follows: "I want to say what a pleasure it is to me to be traveling through your great state and now to be at its capital. I have enjoyed my trip through the state and perhaps you will pardon my saying it. I enjoyed even more what you did on Nov. 8." Hon. Myron T. Herrick, governor of Ohio, and R. H. Jeffries, mayor of Columbus, entered the car and formally extended to the president the greetings of the people of the state and of the capital city. A lady in the crowd handed to a member of the party a beautiful bunch of American beauty roses for Mrs. Roosevelt.

Enthusiastic crowds were encountered at Richmond and Indianapolis, Ind., at the president saying: "I am very much pleased to be going through Indiana, in view of the way Indiana looked at me a couple of weeks ago. Now, gentlemen, the election is over. I am the president of all the country, of all Americans of whatever party, and so far as strength is given me, I shall try to be a good and decent president for the next four years." On arrival in this city in the early morning, the presidential party was accorded a tremendous ovation by the great crowd that thronged the big station. During the sojourn in St. Louis the president, Mrs. Roosevelt, Miss Alice Roosevelt and Secretary and Mrs. Loeb will be the guests of William H. Thompson, treasurer of the Exposition company. Mr. and Mrs. Douglas Robinson will be entertained at the residence of President Francis; while the remaining members of the party will be the guests of the Buckingham club.

FOOTBALL

State Legislation Forbidding the Game is Urged by a Man Whose Son Was Killed.

Chicago, Nov. 26.—State legislation forbidding the playing of football in Illinois, Indiana, Michigan and Wisconsin is being urged by James F. Rowley of this city, whose son, James F. Rowley, Jr., died from injuries received in a game on Nov. 5. Parents of sons who have been killed in the season just closed have been asked to co-operate with him. Through the enactment of a similar law in the four named states at the same time, Mr. Rowley hopes to secure the aid of all educational institutions, neither state nor private, in the abolition of the sport in neighboring institutions.

RIVALRY

In Business Matters Responsible for Fatal Fray Between Merchants in North Carolina.

Charlotte, N. C., Nov. 25.—As a result of business rivalry, W. R. Murray shot and instantly killed his uncle, J. S. Murray, at Durham, N. C. Both men had been running music stores and were well known business men. W. R. Murray heard that his uncle had made certain charges of unfair business methods, and, accompanied by his son, Earle Murray, went to the store of his uncle. At the door he was met by J. S. Murray. A short, bitter quarrel followed and J. S. Murray pulled his revolver and began shooting at W. R. and Earle Murray, three bullets fired taking effect in Earle's hand, arm and thigh. W. R. Murray closed in on his assailant, and taking the revolver from him shot him. The wounded man expired within a few minutes.

NEW CABINET

Charles J. Bonaparte, of Maryland, May Be Slated—Gen. Black Declines Pension Office.

Washington, Nov. 26.—The latest name mentioned in connection with the cabinet list is Charles J. Bonaparte of Maryland. It was doubtless suggested in part on the ground of Mr. Bonaparte's eminent ability and part because there had been so much talk of late about the selection of a Southern Republican.

Mr. Bonaparte assisted in the recent prosecution of the post-office swindles, and the investigation of affairs in the Indian Territory.

It is said that General John G. Black, chairman of the civil service commission, will not go back to his old post at the head of the pension office.

MILD WEATHER

Retards Retail and Jobbing Trade—Dun's Review of the Week's Business.

New York, Nov. 26.—R. G. Dun & Company's weekly review of trade says: Retail and jobbing trade was retarded by unseasonably mild weather and the interruption of another holiday, but manufacturers extend operations as confidence is strengthened by the receipt of larger contracts for future delivery. Postponed orders of all kinds are being placed, reports from every industry indicating that idle mills are reopening and the number of operatives gradually increasing. Cotton spinning makes the slowest progress. Railway returns for November thus far show a gain of 6.0 per cent over last year's gross earnings. Foreign trade at this port for the last week exceeds that of a year ago by \$2,422,264 in value of merchandise exports and \$1,572,300 in imports. Improvement in the iron and steel industry continues. Failures this week numbered 205 in the United States, against 258 last year, and in Canada 22, compared with 11 a year ago.

New York, Nov. 26.—Mrs. Helen Dinsmore, wife of Dr. Emmett Dinsmore, a close friend of Mrs. Florence Maybrick, died today.

Mrs. Johanna Wood, the mother of 12 children, was elected constable of Hugo, Col., by the voters of both parties. No man would run against her.

TRIAL

Of Miss Nan Patterson is Adjourned

TILL MONDAY ON ACCOUNT OF JUROR'S ILLNESS

Actress Will Probably Go on Witness Stand.

MORGAN SMITH NOT ARRESTED.

It is Said the Widow of Caesar Young Doesn't Believe Defendant Shot Her Husband.

New York, Nov. 26.—(Bulletin)—There is a likelihood that a new jury will have to be empanelled in Nan Patterson's trial. Juror Edward Dressler suffered a third stroke of paralysis this morning, and as a blood clot has formed on the right side of his brain and his left side is paralyzed, it will be an impossibility for him further to attend the deliberations of the court. When the doctor's certificate was viewed by Judge Davis, he called Prosecutor Hard and Attorney Levy, counsel for Miss Patterson, into a conference. It is understood that when the court meets Monday the prosecution will agree to a mistrial and that the present jury will be dismissed. A new panel of talesmen will be ordered and a new jury selected. The trial adjourned this morning to Monday, owing to the illness of Dressler.

New York, Nov. 26.—The Nan Patterson murder trial was unexpectedly adjourned this morning until Monday because of the sudden illness of a juror. Counsel for Miss Patterson have virtually decided to let her go on the witness stand and tell her story. The lawyers for the defense, however, declared that the prosecution has failed to make out any cause and that they will make a motion to have the jury directed to find a verdict of not guilty. Attorney O'Reilly said this morning: "The prosecution has made out no case, but if the court takes our motion to have the jury directed to find the defendant not guilty, we are prepared to place enough witnesses on the stand to prove her innocence. Miss Patterson is ready to go on the stand and from her story she would make a good witness."

A sensational report is current throughout the city today that J. Morgan Smith, brother-in-law of the defendant, had been arrested in West Nyack, N. Y. Smith has been wanted by the district attorney for some time. He was subpoenaed to appear as a witness before the grand jury on June 9, but disappeared the day before the grand jury met. The prosecutor declares that Smith is the man who purchased the revolver with which Young was slain from Hyman Stern, the pawnbroker, the night before the shooting. The detective bureau and officials of the district attorney's office deny this morning that Smith has been apprehended, but many still believe that at some psychological moment Smith will be produced in court.

YOUNG'S WIDOW

Is Said to Doubt That Actress Nan Patterson Fired the Shot Which Killed Young.

New York, Nov. 26.—Mrs. Frank T. Young, wife of "Caesar" Young, for the alleged killing of whom "Nan" Patterson faces a jury, does not believe that Nan Patterson deliberately killed her husband. Neither does she wish to testify in the trial.

She believes: "That the revolver was in the hands of Nan Patterson when it was exploded."

That it was aimed at her husband to frighten him into missing the Germanic union which he was to sail with her.

That the pistol was drawn as a "bluff" simply.

That her husband thought his life was in danger.

That he tried to ward off the impending bullet.

That in doing so he grasped at the pistol and caught hold of the revolving chamber, thus getting powder marks on his fingers.

That in grasping the pistol there was a struggle.

That in the struggle it was discharged in the hands of Nan Patterson, killing Caesar Young.

This view as held by Mrs. Young is touched for by a member of the family of the widow.

The November number of "Talent," a magazine published in the interest of lucum talent, and patrons of lecture courses, contains a short article by Walter Bentley Ball, on Fanny Crosby, the well-known hymn writer. The article is filled with personal reminiscences connected with his friendship with this gifted woman, and is an exceedingly readable article. Mr. Ball is now touring the South with a concert company. He has also sung in Mexico, and is meeting with flattering success.

Friday night, November 25, Arthur Schauweker will run an excursion train to St. Louis.

Special train leaves depot (339 Hudson avenue) 7:30, sharp.

Bring your grips and baggage. Don't miss the train.

In response to the above invitation a party of young people enjoyed one of the most delightful and unique entertainments ever given in Newark. The dining room of the Schauweker home had been transformed into a railway station (ticket office, news stand, baggage room, time schedule blackboard, and all), with the proper officials, George Upson, ticket agent; Howard Upson, news boy; Fred Bradlock, baggage master; Arthur Schauweker, conductor. On the front porch of the house was a great railroad headlight. As the travelers arrived in the waiting room, their baggage was checked, and they were sold tickets (score cards for pedro). The foot table was Newark, the head table, was St. Louis, and the intermediate tables, were cities on the way and each score card represented one of the cities.

No one could leave the waiting room until all the travelers had arrived, so the train was half an hour late. The parlors represented the trip, the tables being way stations. For the latest traveling prizes were won by Margery Collins and Sherwood Miller, and to the most belated travelers, Mary Dickinson and Walter Traxler, were given a prize of consolation. At 3 o'clock the first stop for lunch was called. The dining-room had again been transformed into a regular railway lunch-room with high lunch counters and waiters (Bertha Latimer and Stewart Goldsborough). About 10 o'clock there was a second call for lunch, and an hour later a third call. At each time one of the supper courses was served. The guests who enjoyed this delightful entertainment were: Misses Hazel Althool, Frances Wright, Margery Collins, Frances Collins, Marguerite Ickes, Annette Besu, Mary Everett, Sarah Seymour, Marion Weiland, Mary Dickinson, Alda Scott, Charlotte Webb, Nellie Jones, Bernice Hatch, Louise Norpell, Bertha Latimer and Courtney Broadus, of Marion, Ohio; Messrs Duane Fulton, Donald Ferguson, Howard and George Upson, Dorwin Palmer, Adelbert Conkey, Earl Russell, Max Norpell, Ewing Webb, John Felix, Earl Stuck, Carl Swisher, Walter Traxler, Fred Bradlock, Sherman Miller and Stewart Goldsborough.

The prizes were in harmony with the occasion, and to each was given a small trunk containing the prizes, which were also articles useful to travelers.

ELGINIRK SSIRK Coming to America. Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off malades no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill. 25c at all drug stores.

The women of savage tribes have not infrequently a wardrobe consisting of furs which would be worth from \$5,000 to \$10,000. Grundeman, the explorer, relates how one fair Greenlanders wore a dress of seal skin with a hood of that costly fur, the silver fox. The garment was lined with fur of the young seal otter, and there was a fringe of wolverine tails. About \$600 is probably the average worth of the dress of Indian women on the Columbia and Fraser rivers.

LARGE AUDIENCE

Witnessed Presentation of an Economical Boomerang at the High School Chapel Friday.

The High school Chapel was filled Friday night with an audience that seemed to appreciate the presentation of a piece entitled "An Economical Boomerang," which was put on by local talent, the proceeds going to the Senior class of the Newark High School. The chapel was filled with an audience that at all times showed its appreciation of the efforts of some of Newark's best amateur actors. The musical program of the evening consisted of a vocal solo by Miss Mabel Phillips, a violin solo by Ben Pratt, a piano selection by Miss Bessie Glenn, and a vocal solo by Mr. Ben Hoover.

The entire program was arranged by Miss Florence M. King, who also coached those who took part in the rendition of the play.

Jokes from Judge.

Pertinent Inquiry. "Did you hear that Laura Lanning has taken a wife?" "No, whose?"

Told to the Tourist. A tourist who went to Jerusalem fell in with a man named Magoozelem. Who said, "They all scoff. When I try to play golf. Because of the way I fuzzle 'em."

No Danger. William Tell shot the apple from his son's head. "No," he admitted, "I had no fear of hitting the boy. He had just raised a crop of football hair."

Heathen Hospitality. "Put on your largest kettle," says the cannibal chieftain to his chef as he leaves the palace the day before Thanksgiving. "May I be so bold as to ask the reason?" asks the chef. "I think, if I am lucky at the raft, that I shall bring the new missionary home for Thanksgiving dinner tonight."

Why He Smiled. The Japanese Emperor smiled upon the court. "And what," he asked, "what news of the war?" "There are, your majesty," answered the prime minister, "reports of a battle off the coast."

A Deduction. "Isn't it wonderful," mused the landlady, "to think that really there were only two turkeys on the ark?" The once wealthy gentleman who, through force of circumstances, had been compelled—yes, sir, compelled—to take out an existence by patronizing her establishment, laid down the knife with which he had been failing to sever some of the dark meat from the drumstick which had fallen to his his share and commented: "And was that the other turkey you had last Thanksgiving?"

Louis Tas, one of the best known diamond brokers, estimates the output of the DeBeers mines annually at \$10,000,000 and of other mines at \$4,500,000. Add to this the cost of labor, the profits of the syndicates, etc., and he thinks that the annual output of diamonds is worth about \$35,000,000.

NEWARK O.

FINANCIAL

The Peoples National Bank of Newark,
Ohio. One of the Most Conservative
and Strongest in the State—Glances
at Recent Report.(From the New York Mercantile and
Financial Times.)With all the banks in Newark, Ohio,
now upon an undeniably substantial
basis and controlled by officers and di-
rectors of exceptional ability and
financial worth, it yet becomes evident
to one who examines the standing of
the various institutions that in the
People's National the business men of
Newark and the vicinity have one of
the most conservative, strongest and
best managed financial institutions the
locality furnishes.A rough critical glance at the latest
published statement of this bank will
serve to point out our meaning more clearly.
According to a short statement of
the report made on September 6, 1904,
the institution held deposits amounting
to \$358,885, and had national bank
notes outstanding for \$50,000 more;
these items together constituted its
whole outside liability, amounting to
\$408,885. The bank's capital is \$150,-
000, and it has surplus and undivided
earnings of \$71,846. The grand total
of all these sums is \$630,731, and this
amount, of course, is all represented
in the institution's list of assets. This
list, in the first place, shows \$127,534 in
cash, reserves, etc.—money that is
available at all times to meet the de-
mand of depositors. As United States
Government bonds are universally con-
sidered—and necessarily must be—as
good as cash, this bank's investment
securities, amounting to \$63,560, of
which at least five-sixths are govern-
ment bonds and the remainder are
viewed with equal favor by expert
financiers, may be considered for all
practical purposes quite as available
as the money itself would be. In
counting its assets the bank values its
furniture and fixtures at only \$2,500;
there is no real estate to cumber the
account, and all the remaining assets
are represented by well chosen, care-
fully considered loans and discounts to
its responsible depositors and custom-
ers or those who have furnished approved
collateral security. There is there-
fore approximately \$200,000 in money,
and \$320,000 in satisfactory security,
as against only \$408,885 in obligations;
the relative proportions might be
stated on a smaller scale, thus:
\$630.00 as against \$408.69, or \$154.28
as against each \$100.00 due to deposi-
tors and others. Few banks any-
where show such a preponderance of
reliable assets, and we question whether
any other bank in Ohio can equal it.
And yet we have not referred to the
extra, ultimate responsibility which,
to the extent of an additional \$150,000,
rests with the stockholders of this in-
stitution.This is the bank of which Mr. Ben-
jamin Franklin (significant name) is
president, and an active officer; Em-
met M. Raughter, secretary and treas-
urer of the Home Building association
is vice president; T. B. Fulton is cash-
ier, and C. M. Thompson, is assistant
cashier. Upon the board of directors,
besides Messrs. Franklin and Raughter,
are Albert F. Crayton, druggist; Wm.
W. Wehrle, of the Wehrle Co., and
vice president of the Licking County
Building and Savings Co.; Wm. L.
Frost, retired; M. Q. Baker, president
Coshocton National Bank, and Geo. W.
Hayens, real estate broker.With superlative strength as its par-
amount feature, accompanied by an
invariable disposition to be fair,
prompt and courteous in all its busi-
ness relations, the People's National
Bank of Newark, Ohio, may well ex-
pect to receive the serious considera-
tion of all who desire to establish busi-
ness relations or correspondence with
a first-rate bank in that locality.

Santa Claus

Are you weary of the
conventional love story
and its same old plot?Do you tire of trite tales
of political strife and
worldly news of the day?Do you remember that
happy time when you
looked forward to the
coming of Santa Claus?
Wasn't it the happiest
time of your existence?Have you a little one at
your home who is now
"being good" and watch-
ing hopefully and fearfully,
in anticipation of the
coming of good old St.
Nick?Why not renew those
happy days again?Why not let your little
ones read and learn of the
story of Santa Claus; who
he was; how he came to
be; why he comes every
year.The most beautiful
fairytale of recent years
is "The Life and Adven-
tures of Santa Claus," a
new story by L. Frank
Baum, the gifted writer
who wrote "The Wizard of
Oz," "Father Goose," and
scores of other modern
and delightful stories of
child life.His latest story of
"Santa Claus" has made a
tremendous hit in the cit-
ies, and literary folks hail
it as a poetical gem. It
tells the pretty Christmas
story in a new form—a
way that you never
thought of before, but
which assuredly must be
true and right when you
come to think it over.The Advocate has com-
pleted arrangements for
the publication of this
charming story in serial
form, to begin in a few
days. It comes most op-
portunately at this time
when the little folks are
preparing to write to
Santa Claus. It will add a
real and pleasant to this
Christmas season of 1904.Ner is it a story only for
for youngsters but will
please the grownups as
well—that is, if you ever
knew Santa Claus when
you were a little boy or if you
ever were a little girl and
blood boy and girl at all.Watch for the opening
chapters, little folks.

Watch, too, big folks.

For it is a story that
will interest all.

Colorado's Governor Courting Trouble.

In the face of the returns in Colorado showing that Adams, the Democrat, has been elected by over 10,000, it is clear that there is no basis for the contest that Governor Peabody is attempting. In referring to this matter a few days ago we predicted that any attempt to defeat the will of the people in Colorado would be dangerous to the peace of that state, and perhaps to the tranquility of that section of the country. Since then there have been serious signs that the popular temper in Colorado has been stirred up to a dangerous pitch. Already there is talk of Peabody calling out the militia.

We hope for the sake of the nation at large as well as for Colorado's peace and prosperity that no such action will be taken.

Colorado has had enough of "dracon rule," and this country has heard enough of the horrors that the Peabody-Bell methods have brought upon that state. With the entire election machinery of the state in the hands of the governor he has been defeated at the polls. We hope he will have the sense to "let well enough alone," and not take any action which may revive chaos and probably civil war in Colorado.

An Episcopal bishop went to the polls in Philadelphia, accompanied by three colored servants who are voters, all four depositing their ballots with heads uncovered. Voting is a solemn duty, if not a sacred one, and it will be a step in advance when every voter approaches the polling place in a spirit of reverence for his own act and the acts of his fellow citizens. In order to have a truly representative government the voter must vote according to his permanent convictions and not follow the lead of transient emotions.

Emperor William's image making hobby has led him into strange paths. Having exhausted his imperial and royal ancestors, he is now having erected before his palace in Berlin a statue of Admiral Coligny, the Huguenot hero, from whom he claims descent in the female line through William of Orange and the Great Elector. It is a fair inference from the kaiser's German-Latin telegram of congratulation to President Roosevelt that a statue of Theodore may soon be seen under the lindes.

"Be thou as cold as ice thou shalt not escape calumny," were Hamlet's words to Ophelia. That coldness is not prima facie evidence of integrity appears in the matter of the federal officials in Alaska, where a United States marshal has just been removed by the president and the resignations of two judges have been demanded.

With a German physician suing an American for \$2,000 for one consultation and a French doctor trying to collect from another American a bill of \$100,000 for failing to cure his invalid wife, our citizens would do well to come home to be sick.

A Manchester dyer claims that all inflammable textiles may be rendered fireproof by treating them with titanic acid, which become an integral part of the fabric and cannot be removed by washing, boiling or dyeing.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt them on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. J. A. O. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

One Way to Encourage Peace.

The conclusion has long since been reached by the great neutral powers that the war in the east should end speedily. For diplomatic reasons, which need not be reviewed here, the neutral nations that seem at first glance to be in a position to propose a cessation of hostilities to the belligerents withhold their good offices, and since both Russia and China are stubborn the war will doubtless continue. If the plan for keeping the general peace which Mr. Carnegie proposes were now in operation it would be somebody's business to call a halt. Carnegie suggests that two or three strong powers be continually on duty as peacemakers. Interference would then be obligatory if one or both parties to a quarrel proved refractory. In default of a peacemaker alliance resort in a crisis like the present might be made to the world's financiers. Money is a prime necessity in war. Everything depends upon the army treasure chest. Russia and Japan are placing new loans, and money kings of London, Berlin and Paris, the capitals of the three neutral nations which profess to be anxious that the war come to an end, are putting up millions upon millions to enable the belligerents to fight it out. Bankers are not given to sentiment, but they lay claim to conservatism and good sense. Perhaps those rulers and diplomats whose hands are tied in the matter of intervention are not so handicapped when it comes to impressing capitalists with the righteousness of any cause they have at heart.

New Electric Motors.

The successful test of the New York Central's new electric locomotive in the recent trial at Schenectady will doubtless be generally taken as vindicating the position of those who have been proclaiming the passing of the steam engine for railway use. An electric locomotive drawing nine heavy cars easily developed a regular speed of sixty miles an hour and a speed of seventy miles under forced draft, leaving far behind a train on a parallel track drawn by two of the Central's fastest steam locomotives.

There is little likelihood, however, that electricity will soon displace steam for regular service, either passenger or freight, unless some invention shall greatly cheapen the cost of transmission of electrical energy over long distances. From the standpoint of the railroad owner there is but one justification for a change in method—economy in operating expenses. The steam engine is a direct acting machine, while any electrical device must necessarily use a double or multiple transmission before power is obtained at the motor wheels. There is a great waste of energy in firing a steam locomotive, but it is not enough to offset the loss of power in multiple conversion and to pay the interest upon the greater cost of electrical installation.

The prompt acceptance by Austria of President Roosevelt's suggestion that a second Hague conference be called augurs well for the new peace movement. While Austria is the first country which responded officially to the president's invitation, it is known that most of the other Europeans look upon the suggestion with favor. In order to secure the participation in the conference of Russia and Japan it will of course be necessary to arrange the programme of matters to be discussed with great care. The first Hague conference had its successes, notably the reference of the Anglo-German-Venezuelan dispute to arbitration. If the second should hasten the end of the war in the east, the permanence of the international tribunal would be assured.

Frederick the Great of Prussia is an interesting character to read about, and his statue in Washington will send many a gaping spectator to the library shelves for information. His rule in Prussia was the reverse of liberal and democratic. Even divine right didn't appeal to him. He ruled by royal family right. He admired Washington, and perhaps in America the cranky old king would have been considerable of a man.

Our old friend Wu Ting Fang, while he has not yet regained his peacock feather, has been granted by the dowager empress the rare privilege of riding horseback within the precincts of the Forbidden City. He would probably have better appreciated permission to visit the royal inclosure with the big automobile in which he used to scour the streets of Washington.

Brazil's clean record has been snatched by a revolution much like those internal turmoils which have disgraced her sister republics, but the firm hand with which it has been suppressed testifies to the stability and wisdom of the government.

The mikado's government has spent for every Japanese soldier killed in Manchuria \$2,700. The price of human chattels seems to have gone up since the days of African slavery, when an able-bodied man sold for \$1,400.

John D. Rockefeller seems likely to die poor, like Andrew Carnegie. The Standard Oil company's dividend this year is only 36 per cent.

BANKS ALL SAFE.

Excellent Condition and Good Management Assured—Resources \$3,330,000; Deposits \$2,420,000; Capital and Surplus \$830,000.

(From The Mercantile and Financial Times.)

The two National and three State banks, the only incorporated banking institutions in Newark, Ohio, have aggregated resources, according to recent official statements, amounting to over \$3,330,000. The total outside liabilities of these institutions is scarcely more than \$2,500,000; there is therefore an excess of \$830,000 in present assets and an ultimate financial responsibility of \$615,000 in addition, or, in all, approximately, \$1,515,000 more than the full equivalent for every dollar of deposits, circulation and all other outside obligations.

As has been indicated already each of these banks shows perfectly satisfactory conditions in its latest report to the authorities and, assuming the continuance of the respective management that have accomplished so much, it is safe to say that the people of Newark and its vicinity have as good and as strong banks now as can be found anywhere in the State. Here, for instance, is an illustration:

The Licking County Bank, though one of the younger institutions and established so recently as June 9, 1902, leads in the total amount of its resources and the amount of subscribed and paid-up capital; it has the largest sum of deposits, etc., and also the largest line of loans and discounts. Taking the figures of the October 12, 1904, report, the resources are shown to be \$778,918; of this sum no less than \$139,236 is in cash or its equivalents in cash items, reserves and amounts due from other banks; very little of the institution's money has been entrusted to corporate enterprises, for the whole amount of its investments reaches by first mortgage bonds; by an ultra-conservative estimate of the asset value of its real estate, fixtures and furniture, and adding in current expenses, \$22,504 is accounted for, and the remaining \$612,990 is all represented by carefully selected, well-chosen commercial paper and loans made upon real estate and collateral security of the most approved character. Upon the other side of the ledger the institution's outside liabilities all may be classed as deposits from individuals, \$545,729, and due to banks \$26,897; the sum of these is \$572,626, leaving a margin of \$206,292 (represented by capital, \$165,000, and surplus and undivided earnings, \$41,292) between the higher aggregate resources and the lower total of liabilities. There is a further ultimate realizable financial responsibility of \$165,000 more, and that actually broadens the margin to over \$370,000, but of this we do not deem it necessary to speak.

In estimating the qualities of a bank it must not be forgotten that the characters and general qualifications of the men who control it are matters of paramount importance. In every board having to frame the policy and direct the course of a bank the elements of sound judgment, practical experience and conservative inclination must predominate in order to insure safety at all times, and usefulness and prosperity as opportunity affords. We believe that in its officers and directors the Licking County Bank takes a position that well accords with its financial prominence, and that more capable, painstaking and assiduous managers, or more conscientious and reliable directors cannot be found in either the city or the State. It is not necessary to enter into personal details regarding these gentlemen, for each is well-known personally—known to the people who do business in Newark. The officers and members of the board are: W. N. Fulton, president; E. T. Rugg, president of the Rugg Hater Factory, vice president; E. W. Crayton, cashier; Wm. Allen Veach, superintendent Newark, Ohio, Water Works; George D. Orr, farmer; J. R. Fitzgibbon, attorney at law; Wm. C. Miller, secretary and treasurer of the Powers-Miller Co.; John H. Swisher, of Swisher Bros., cigar manufacturers, and James K. Hamill, capitalist. J. Earl Coad is the assistant cashier.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. WRECKING THE FAIR

THE EXPOSITION AT ST. LOUIS WILL SOON BE IN RUINS.

Work of Tearing It Down to Begin When the Gates Close, Nov. 30. Picturesque and Pathetic Sight That May Soon Be Witnessed.

In a few days more the great world's fair of 1904 at St. Louis will be a thing of the past. The last gate fee will have been taken. The illumination of the Cascades and Festival hall that evoked such ecstasies of admiration will have vanished forever, leaving only the gorgeous word paintings of magazine and newspaper writers to perpetuate its memory. The congresses and Olympic games and airship races will all be over. President Francis will take a vacation from speechmaking, the board of lady managers will have said the last word, and even on the Pike there will be "nothing doing." Then the wrecking of the exhibit buildings will begin. First the statuary will come down from domes and towers and pediments and pillars. Half a million dollars was spent on the sculptural decorations. Over eighty men and women of artistic skill and

MOVING DAY ON THE PIKE.

genius worked for months to produce the models for the statuary, and more than a hundred workmen were engaged for over a year in building up these models to heroic size in plaster and other material.

The bronze and marble sculptures of the Art palace will remain, as that is in part a permanent building, but most of the other stately and beautiful figures that made the exposition grounds a vast art gallery will ere long be found in junk heaps or if spared this dire humiliation may be carted away for the temporary adornment of beer gardens and picnic resorts. The big statue of Vulcan, fifty feet high, which is more a commercial exhibit than a work of art, awaits a happier fate. That will not be wrecked, but will be taken to pieces with care, and its various members, forming a load of 150,000 pounds, will be packed in twelve large freight cars and shipped to Birmingham, Ala., where it is to stand in Capitol park and remind beholders not only of Alabama's mineral wealth, but of the glory of the exposition that was.

A picturesque procession will wind its way through the gates the day after

"BACK TO THE WOODS."

the lights go out and gloom settles down over the Pike. The hairy Ainus will shake the dust of St. Louis from their shaggy frames and bid themselves back to the Isle of Hokkaido. Fierce old Geronimo, fierce no more, though General Miles once called him the "human tiger," will doff his feathers and war paint and strike the trail for Fort Sill, I. T., to return to the pursuits of a peaceful agriculturist.

The wrecked world's fair will be a sad spectacle. The main portion of the Art palace will remain. The stone buildings of the Washington university group, used for exposition purposes, will be turned over to the college students on Jan. 1. There is talk of removing the United States government building to Washington and re-erecting it there. Some of the state buildings will be taken to the Lewis and Clark exposition in Oregon. But most of the 200 structures making up the Ivory City will be demolished and carted away within three months of the closing day. It took three years and about \$25,000,000 to build the fair. It is estimated that about 4,000 men will be employed for three months in tearing it down.

A Midnight Marriage Won.

Saginaw, Mich., Nov. 26.—Harry Forbes of Chicago, knocked out Joe Cherry of Saginaw, in the thirteenth round of a scheduled 15 round battle before the Saginaw Athletic club here. Both men were easily under 120 pounds. The fighting was fierce at all times and the honors were even up to the sixth round, when Forbes scored the first knockdown. In the tenth round Cherry again took the count, and he ended the round by clinging to Forbes. From then on it was only a question of how much time it would take Forbes to wear out his opponent.

Expelled Branch Reinstated.

New York, Nov. 26.—Branch 78 of Evansville, Ind., of the Workman's Sick and Death Benefit fund, a labor insurance organization incorporated in New York, with branches in various parts of the country, was reinstated to full rights and membership by a decision handed down in the supreme court by Judge Truax. Four years ago Branch No. 78 opposed the reelection of the grand officers of the fund in a circular letter to all other branches. The officers were re-elected and later Branch 78 was expelled.

Trials of Motherhood

395 Broad Street, PHILADELPHIA, PA., June 12, 1903.
I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossible. I had constant racking bearing-down pains in the pelvic organs and a pulling through my limbs with frequent headaches. I felt sick at my stomach and vomited frequently and no medicine helped me until I tried Wine of Cardui.
Then my general health improved, the pains gradually lessened and after 18 weeks I was well. I am now the happy mother of a boy eighteen months old and my husband joins me in sending heartfelt thanks to you for your splendid medicine. Without, I would have been a childless, instead of a happy and well mother.

CHRYSLER, ST. ANDREW'S ASSOCIATION.

WINE OF CARDUI

Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philadelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. This same medicine is within your reach. Will you take it?
All druggists sell \$1.00 bottles Wine of Cardui.

COOKEY JONES

HELPS WISCONSIN UNCLE PLANT A TOMBSTONE.

While Up North Our Correspondent Gets Full-of Spring Water—He Tells All About It.

Burlington, Wis., Nov. 24—I am trying to earn my salary, but it is tough sledding for reporters since the election, especially reporters for Democratic newspapers. I saw by the newspaper that the next day was to be in Chicago, what old Licking did for the Republicans, and it was just my luck not to be on the ticket when it went that way. Just think of it! Old Licking going Republican! Why did it not do it while I was on the ticket for Mayor?

I spent yesterday at Waukesha, Wis., the place of the world renowned Bethesda Springs. Mrs. Jones and myself visited the springs and got terribly full and that is all—full of spring water without the effect of that glad feeling like full of Consumers. I am writing this letter in a snore shop with the cobbler battising my shoes, and as I said, it was tough sledding for a reporter. I expect to go to bed after dinner and send my wash to the laundry. Nothing like a small wardrobe out on the road. My celluloid collar holds up fine; stands the wash every morning—hard on the soap, but that is free at the hotel.

I must tell the good people about my visit with my uncle and aunt at Waukesha, Wis., Monday. Uncle is in his 91st year and aunt is next 81. They have been married 62 years the 26th of last May—the date of my anniversary, but understand me that Robert and Rachel have been longer in the matrimonial service than Orie! and Jennie, by several summers. They went to the county fair last October and took first prize for being the oldest living couple in the county, longest married and the oldest settlers of the county. He left Granville on his wedding trip for his new home in the wilds of Wisconsin, when the Indian, the bear and other wild game were his companions, and has lived in the same spot, now having 256 acres of fine farming land.

I must tell you the way I spent a day while with him. He asked me to go with him to the graveyard as he had bought a monument and the men were going to set it up and he wanted to boss the job.

He, his son-in-law and myself worked with the men digging the foundation hole, four feet deep, filling it with niggerheads from the adjoining field, and making a sand, gravel and cement filler, put up the monument, markers and corner posts on the lot, 25x25 feet, and after the job was all up, I said to uncle: "How does it suit you?" He said, "I am well pleased with it; I think it is fine." The monument man said it weighed four tons set, and said few jobs he had set up in his life time with the corpse bossing the job I will give you a description of the stone: "Williams" in large letters on the top of a large slab with "Robert" under the name, "Born Oct. 18, 1814; died —" Then "Rachel," under which, "Born Mar. 17, 1821; died —"

I said to uncle as we were leaving the lot: "I guess we have done all we can do and to complete the job will have to have a couple of friends." He laughed and said, "Yes," but I hope that will be some time to come.

While the work was going on I took a stroll around the graveyard to see if I could see any names of the departed I knew. I read all the names on the stones in the little Welsh graveyard, and they read as follows: Edward Lewis, born Aug. 6, 1816; died Aug. 25, 1881. Richard B. Humphrey, born in Wales Aug. 25, 1804; died July 5, 1883. John Owens, Dec. 21, in his 37th yr. Thomas Richards, born Jan. 15, 1817; died July 25, 1855.

I thought to myself the way the tombstones read, Jones, Williams, Richards, Owens, Lewis, Thomas, James, that no Dutch or Irish need apply for burial, as the place was decidedly Welsh or Republican.

When the men had finished the work, uncle told them to come to the house, get their dinners and get the money for the work and after the men had gone he showed me the receipt for monument and said, "Well, I am sure of a tombstone, as it is all paid for, and still I have money in the bank."

What a comfortable feeling it must be to think in old age—a good farm all paid for, money in the bank, and the tombstone all set and paid for, awaiting the corpse.

I got the papers from home every day, and am kept posted on home news. I see by reading the papers that one section at home want to build the old waterworks, one faction build a new plant, and I hope a third faction will spring up to keep an eagle eye on the others two for sure there will be something doing if we are to spend \$100,000 for improvements. No good taxes will go down. I see some are agreed with that and I am a supporter and some not. I hope if Henry & Co. do not do what is right on taxes, other capital will ask for franchise as it is plentiful in old Licking, a county I am always glad to claim as my home.

Yours,
COOKEY JONES.

NEWBRO'S HERPICIDE

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM," AN EXQUISITE HAIR DRESSING.

Herpicide Girls

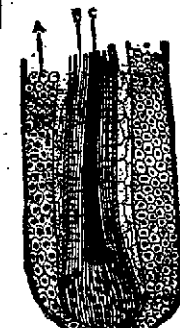

THE LADIES OBJECT to a gummy and sticky hair dressing or one that is full of sedimentary chemicals intended to dye the hair. The marked preference for a clean and dainty preparation, particularly one that overcomes excessive oiliness and leaves the hair light and fluffy, is reflected in the enormous sale of Newbro's Herpicide. Discriminating ladies become enthusiastic over its refreshing quality and exquisite fragrance.

A WOMAN TO BE PRETTY must have pretty hair. The features may be quite plain or even homely, yet if the head is crowned with an abundance of beautiful hair, attractiveness will not be lacking. The poet says: "Fair tresses man's imperial race ensnare." Herpicide gives the hair a charming distinctiveness that is characteristic of no other hair dressing.

DISEASED HAIR A MISFORTUNE. Unshightly or

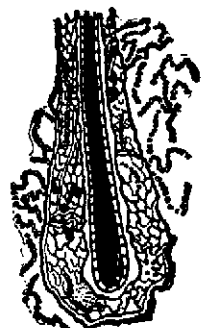

diseased hair is a misfortune in more ways than one. There is the actual injury to the hair follicles, and the consequent loss or thinning of the hair; this may cause diseases that sometimes follow a removal or thinning of nature's protection to the head. A diseased condition of the hair effects a woman's disposition to a marked degree. If the hair is dull, brittle and lifeless, owing to the presence of a microbic growth, the effect is to dampen one's spirits and cause a loss of interest in personal appearance. The use of Newbro's Herpicide overcomes the ravages of the dandruff microbe, after which the natural beauty and abundance of the hair will return as nature intended. Almost marvelous results follow the use of Herpicide. Gentlemen will find Newbro's Herpicide in use at all important barber shops.

STOPS ITCHING OF THE SCALP INSTANTLY.

Relieved an Affliction of 20 Years standing. After being afflicted with dandruff for 20 years, I was induced to try a bottle of Herpicide. After using one bottle, my head is nearly free from dandruff; also, new hair is thicker and stronger. (Signed) "GEO. W. MORSE," Pittsburg, Pa.

Explained.

Sir Joshua Reynolds was explaining his success. "When the women say, 'Sir Joshua, it flatters me, I how and say, 'Now, by St. George, that were impossible!'" Yet posterity wonders how he happened to get more orders than he could fill.

LAXAKOLA GUARANTEED TO CURE CONSTIPATION.

Wiles-Erman Drug Co. Recommend It Because They Know It Cures.

"There are so many laxatives on the market," said the above drug firm, "that it is hard to tell which to recommend, however, it is a good deal of satisfaction to know there is at least one we can recommend with every confidence."

Experience shows that Laxakola is sure to benefit every one in need of a mild, tonic laxative, and we ask our customers to try it on our guarantee. "Experience has taught us it doesn't pay to deceive the people and recommend anything that might prove in the least unsatisfactory, but we know Laxakola is all right and sure to do good."

"It is the only liquid laxative in this store that we are willing to sell with a guarantee, and it tastes so nice that children like it and ask for it."

If the baby is colicky, or fretty, or teething, there is nothing will do so much good as Laxakola. Try it, and if it proves in the least disappointing we will return your money. 11-15tf

SHOWING THE WAY.

This Public Statement of a Newark Citizen Will Be Appreciated.

Many a reader of this in Newark has gone through the self-same experience in part, and will be glad to be shown the way to get rid of the constant aches and pains of a bad back. Profit by a Newark citizen's experience.

T. Henderson, of 489 Baltimore street, says: "I can only say that after giving Doan's Kidney Pills a trial, they showed themselves to be all that was claimed for them. I had a good deal of pain over my kidneys. If I contracted a cold, no matter how slight, it always affected them first, and as a result my back grew worse being frequently so painful that it was more than I could do sometimes to straighten up. The urine was of a bad odor and color—evidence that the kidneys were not altogether right. After I obtained Doan's Kidney Pills at Crayton's drug store all this trouble was corrected. The kidneys passed away the impurities and my back was strong and free from pain."

LITTLE BOY

Bleeding to Death from Cut in His Gum No Larger Than a Pin Head. Unusual Case.

Parkersburg, W. Va., Nov. 26.—Chas. Nolan, three years old, is thought to be bleeding to death from a cut in his gum no larger than a pin head. All efforts of physicians to stop the flow of blood have proved ineffectual and he has been given up to die. His death would be the second in each of three succeeding generations of his family caused by bleeding. Mrs. Nolan has already lost one son from the same cause. Her mother lost two sons in the same way and her grandmother lost two sons who bled to death. The girls in the family have all escaped, but every son for three generations has bled to death from some trivial wound.

"SMITTIE"

Leader of First Regiment Band, Well Known in Newark, Falls Dead at Paris, Ky.

Major George Smith, familiarly known as "Smittie," for many years drum major and leader of the First regiment band, O. N. G., fell dead on Friday, of heart disease at Paris, Ky., where his band was filling an engagement. Unquestionably "Smittie" was known personally to more men, women and children than any other person in Cincinnati and his taking off will be sincerely mourned by tens of thousands. All the band musicians of the city will join in one immense band at his funeral.

Mr. Smith is well known in Newark. He was at the head of the First regiment band when the Cincinnati regiment camped here.

The Cincinnati Enquirer Saturday in referring to the death of Mr. Smith, said:

"An incident showing his soldierly abilities took place when the regiment was encamped on the state grounds, near Newark, Ohio, in 1902. Fire had started in one of the cook tents and the alarm had been sounded. It was misunderstood by most of the men—some thinking it was the call to arms and others the sick alarm. During the height of the confusion Smith, with 15 members of his band, marched into 'headquarters street' and calmly reported to Colonel Bundy. They were equipped with buckets and brooms. It is a mystery today where Smith managed to gather the implements at such short notice.

"It will be many a day before the multitude will cease to recall the stirring processions in which 'Smittie' was always prominent. The present generation will never forget him."

HORSE STOLEN

SAMUEL TAYLOR SAW THE MEN DRIVE AWAY.

Fired Shotgun at Them, But Horse Thieves Escaped—Newark Officers Notified by Telephone.

Mr. Samuel Taylor, a well known farmer who resides near Luray, in this county, was the victim of horse thieves on Friday night. About 9:30 o'clock he heard a commotion among his turkeys, near the house, and supposing some one was after them, went out to investigate. He discovered on going into the barn yard that two strange men had just hitched his horse to his buggy and were in the act of driving away as he came out.

He called to them to stop, but they only whipped up the horse and drove the faster. Mr. Taylor rushed back to the house and got his shotgun and fired at them. But instead of stopping they only drove the faster and soon disappeared. He then gave the alarm and soon a number of the neighbors collected. A posse was organized and started after the thieves, but the search for them was unavailing. The horse was a good traveler and had quite a start of the pursuers, and they were unable to overtake them. They tracked the fugitives as far as Dorsey's mill, a short distance southwest of the city, where they lost all trace of them. Chief Sheridan was notified of the robbery, and with Officer Zergiebel went out to the vicinity where the thieves were last seen, and made a thorough examination, but were unable to find any trace of the robbers.

It is reported that the men were seen in both Johnstown and Granville. It is said that the officers at both places had been requested to keep a lookout for the thieves, but that they were backward about arresting them, and they succeeded in making their escape.

NATURAL GAS

SURVEY FROM LICKING COUNTY TO CINCINNATI.

Official Says His Company Has Enough Gas to Last Quarter of a Century. Towns Supplied.

Columbus, O., Nov. 26.—The Ohio Fuel Supply company expects to have natural gas piped from Licking county to the city limits of Cincinnati by early summer of next year. A surveying corps is now going over the ground.

John M. Garard, manager of the Federal Gas company, said:

"We have two lines to Columbus, one from the Knox-Licking field and the other from the Sugar Grove field, and the company supplies the gas to the Federal company, which distributes it in Columbus.

"The supply of gas we have will meet all demands for the next 25 years at least, and then we have thousands of acres of virgin gas lands in West Virginia to draw upon when the Ohio supply is exhausted.

"The Ohio Fuel Supply company supplies gas to Columbus, Logan, Canal Winchester, Carroll, Hookers, Worthington, New Albany Groveport, Gahanna and to some of the manufacturing of Lancaster, Mt. Vernon, Gambier, Uflea, Fredericktown, Croton, Appleton, Johnstown, Martinsburg, Cambridge, Bysville, Pleasant City, Hartford, Caldwell, Roseville, Crooksville, Fultonham, Junction City, Zanesville, Bremen, Rushville, Somerset, Nashport, South Zanesville, Hanover, Nelsonville, Corning, Moxahala, Hemlock, New Lexington, Gloster, Jacksonville, Thrimble, Shawnee, New Straitsville, Murray City, Jackson, Coalton, McArthur, Glenroy and Hampton.

"Cincinnati will be a good place to set the gas. There is no natural gas there, and artificial gas is used. We cannot only supply Cincinnati, but some of the towns on the way. We will either lay a 16 or 20-inch main to Cincinnati, probably from the fields northeast of Columbus."

The company now has a capital stock of \$1,000,000, and this will be increased to \$6,000,000, the \$2,000,000 to be used for the extension.

While the opinion prevails, outside of Cincinnati at least that the Queen City is not giving public service corporations any encouragement, the local stockholders of the Ohio Fuel Supply company do not fear that his will interfere with their prospects. They say when it is known that gas is at the city limits and can be delivered to the stoves of residents the citizens will get the gas in spite of opposition from authorities. It is pointed out that this always has been the case. In Columbus, for instance, two natural gas companies are doing a profitable business. A third sought to enter the field, but council did not take kindly to it. In the face of council's attitude the people at the last election voted almost unanimously to give the third company a franchise.

Because of approaching winter nothing will be done on the Cincinnati line in the way of laying pipe although it is promised that by the time the ground opens up in the spring the surveys will have been completed, rights of way secured and the necessary pipe purchased.

BANK CASE

AMICABLY SETTLED SATURDAY BY BOTH PARTIES.

Directors of Both Institutions Got Together and Reached an Agreement—The Terms.

The suit between the Licking County Bank Company and The Peoples National Bank was amicably settled on Saturday by the parties. In view of the public interest in this suit, both banks desire to make the terms of the settlement known, as the adjustment is satisfactory to both institutions.

The Peoples National Bank releases any and all claims that it might have to the property, real and personal, turned over to the Licking County Bank by Harry J. Hoover. This includes the Hoover-Ball block on Church street, and pays to the Licking County Bank out of its surplus \$15,000 in cash. The Licking County Bank in return delivers to the Peoples National Bank the certificates of deposit sued upon in the case, amounting to \$24,585.

This announcement of the settlement of this bank suit will be received with satisfaction by the friends of both institutions and by the public generally. It does away with litigation that promised to extend over a long period of years, and is made on a basis that to an impartial observer seems fair and just. Each of the banks is abundantly able to make the concession here announced, and both can now consider the incident closed and go forward in their career of progress.

The Advocate feels like congratulating the directors of both institutions for their good common sense in coming to an agreement rather than go through years of litigation which, no matter what the result might have been, would have worked to the injury of both institutions. The stability of neither is impaired by the slight concession that each has made.

While Newark has in the past had its bank troubles, it can confidently be stated that these days of unrest are over. There is not an institution in Newark today that is not abundantly able to take care of every one of its obligations in short order.

Order your friends a plate and 100 cards for a Christmas present. You can get them at the Advocate Office.

TWO LITTLE GIRLS

Who Left Zanesville to Visit Columbus Captured in This City and Returned to Their Parents by Aid of the Police.

Aided by a clairvoyant the police of Zanesville were placed on the trail of two girls, each aged 15 years, who had purchased tickets on the Interurban railroad and were seen to leave Zanesville at 3:40 o'clock for Columbus, only to be apprehended in Newark when they arrived in this city, and returned to their homes in Zanesville late Friday evening. The two young women were Miss Stella Clark, daughter of Mr. and Mrs. Charles Clark, of Keen street, and Miss Ethel Rhodes, daughter of Mr. and Mrs. Charles Rhodes, of Pearl street, Zanesville.

The two girls, when seen on the car at Sixth and Main street Friday afternoon by Patrolmen Owens and Blanchard, stated they were going to Columbus on a visit. Each had a one way ticket to the Capital City.

The two police officers had been tipped concerning the actions of the pair, by a stranger who stated that he had been to call on a clairvoyant and who, after reading his palm and mind, had told him of the runaway of the girls.

FUGITIVE MANIACS

Believed to Be Wandering Near Newark--Traces of Missing Men--Theft of Horse--Marked Underwear Left Behind.

Columbus, O., Nov. 26.—Attendants from the Columbus State Hospital are scouring the country east of Franklin county, in Licking county, in the hope of apprehending Richard Doty and Isaac Reynolds, the two inmates who made a sensational escape from the institution about ten days ago.

Reports from Johnstown and that vicinity, received at the prison, concerning several thefts of horses, lead the police and attendants to believe that the two men are implicated in the work, and the search will be continued for some time.

The latest report of horse stealing comes to the police from Obe Cook, a farmer residing near Johnstown, who states that two men, driving an old worn-out horse to a rickety buggy, stopped at his barn, transferred their horse to one of his stalls, and replaced it with a valuable animal and another buggy.

In the old buggy was found a suit of underwear bearing the name "R Doty." This gave the hospital officials and the police the first clue of the escaped inmates they had received since their French leave taking.

Cook followed the men for several miles, but failed to overtake them. They drove in the direction of Newark, and it is about that territory that the officers will seek to recapture the two men.

Superintendent Stockton, of the institution, is of the belief that Reynolds, who is a confirmed horse-thief, but weak physically, plans the thefts, while Doty, a powerful man physically, carries them out.

TWO LITTLE GIRLS

Who Left Zanesville to Visit Columbus Captured in This City and Returned to Their Parents by Aid of the Police.

The police were powerless to act, having no authority to arrest the young women. They also had nothing more than the word of a stranger, who was himself going on what a mind reader had told him.

The officers notified the parents of the girls. The department was immediately given authority, and Newark police were telephoned, with the result that the two were apprehended when the car reached this city.

Charles Clark, father of one of the girls asked that an officer be sent after the girls, in the event they were caught. Word was soon received of the apprehension in Newark.

Patrolman Fred Arter was dispatched to Newark on the 6:40 car and returned to Zanesville with the two runaway girls late in the evening.

The parents of both girls are at a loss to know why they ran away or ever thought of leaving home. While on the car the two stated they ought to be back to work in the woolen mills, where they are employed on Saturday morning.

Divorce is Wanted.

Bernice Dunson has filed a petition in the Probate court asking that she be given a divorce from her husband, Emory Dunson, alias "Ella" Dunson. Plaintiff says that she was married on April 9, 1903, and that no children were born. She says that the defendant was sentenced to the Ohio penitentiary from Fayette county and taken to that institution on January 20, 1904, on the charge of grand larceny, the extent of his term being two years. She says that aside from the fact that she was married to the plaintiff, all the allegations made in his petition are untrue, and asks that his petition be dismissed. For cross petition she charges her husband with extreme cruelty in striking her with his razor strop and in beating her with his fists. She also charges him with gross neglect of duty. She asks for temporary alimony, and also that the Wehrle Company be made a party to the suit, and that it be restrained from paying any money to the plaintiff which may become due to him, and that her maiden name of Emma Robinson be restored to her. MOTION

FOR CHANGE OF VENUE IN THE LINGAFELTER CASES.

Five Reasons Given by Defendants for Asking for a Change to Another County.

Motions for change of venue in one case each of the State of Ohio against James F. and Robert C. Lingafelter, in relation to their alleged shortcomings in connection with the failure of the Newark Savings bank and Homestead Building Association were filed Saturday afternoon by Smythe & Smythe of this city and Frank Owens of Mt. Vernon. The motions for the change of venue are supported by the affidavits of a number of Newark attorneys and citizens. The affidavits in support of the change of venue are in substance as follows:

1. Because of the recent bank troubles.
2. Because of the publicity given the case by the newspapers.
3. Because of the excitement caused by the closing of the Savings Bank and the Banking Association, and comment caused thereby.
4. Because of the large number of depositors of said bank, scattered all over the county who are financially concerned.
5. Because affiant believes that it would be impossible to empanel a jury in Licking county who have not heard of and commented upon the case, and thereby formed an opinion.

The motion will probably be argued the first of the week in Common Pleas court.
